## DISEASE CARRIERS ARE DISCUSSED BY HEALTH OFFICER

**Dr. V. D. Guittard Discusses the Carriers of Diseases in Interesting Article.**

(By Dr. V. D. Guittard, Director Mason County Health Department.)

There are many people in good health who produce disease germs in their bodies. Typhoid Mary was a notorious example. This woman who was employed as a cook, left a trail of typhoid cases wherever she was employed. The authorities finally placed her in an institution where she was kept under restraint.

These people who unknown even to themselves harbor disease germs within their bodies, mingle freely with other people without of course taking any precautions whatever. Such persons are called "carriers," and generally are themselves proof against the disease.

The disease germs in "carriers" are found in the tonsils, in abscesses and running sores, discharging ears and in the gall bladder.

The diseases most often spread by "carriers" are diphtheria, scarlet fever, typhoid fever and meningitis.

These "carriers" and mild or missed cases are responsible for the many cases of communicable diseases constantly occurring. Many cases of sore throat are really mild cases of scarlet fever or diphtheria. "Carriers" are just as dangerous as a person who is sick with a contagious disease, for he can also spread it.

The many cases of diphtheria occurring in this community are due to carriers who have the diphtheria germs in their throats and are not made sick by them, but who pass these on to other persons who then take the disease.

A search is being made by the Health Department for diphtheria carriers among school children. A considerable number have been found and the parents notified to take them to their physician for treatment. In one school in the county five "carriers" were found. Two of these were in one family. Proper precautions were not taken, notice to the parents was disregarded. A young child in the same family caught the disease from his two older brothers who were "carriers" and died from diphtheria.

It is difficult to make any one believe that disease germs may grow in the body and all ordinary signs of sickness are absent. But this is absolutely true. The microscope shows it.

Children who are found to be "carriers" of diphtheria should have their throats treated and should also receive a dose of antitoxin.

"Carriers" usually produce fewer germs than the sick, but on account of their mingling freely with other people they are responsible for most of the cases. That is, more new cases arise from "carriers" than on account of exposure to a person who is really sick with one of these diseases.

January 16th is the last day for discount on telephone bills. 9Jan7

## REVIVAL GROWS IN INTEREST AT LOCAL CHURCH

**Evangelist Harmon Delivers Strong Addresses — Sermons Are Carrying Conviction.**

The revival services being conducted at the First M. E. Church, South, by Rev. Harmon, of Hattiesburg, Miss., continue to grow in interest and in power. Rev. Harmon is a forceful speaker, preserving the fundamental facts of the Bible with simplicity and earnestness that carry conviction.

Tuesday evening he spoke on "Why God Hides His Face from Us," his text being Isaiah 59:2. After a discussion of biblical passages in which sin is defined as unbelief, as all unrighteousness, as the transgression of God's law, he emphasized events in the history of the race and the life of individuals in which sin caused division and destruction.

At the daily morning service Rev. Harmon is leading a very helpful study of prayer.

## GEORGE ARLISS IN "THE DEVIL"

George Arliss comes to the Pastime Tuesday in "The Devil." The supporting all-star cast includes Sylvia Breamer, Roland Bottomley, Edmund Lowe, Lucy Cotton and Mrs. Arliss.

George Arliss, the eminent stage star

makes his screen debut in his most illustrious stage success, the sensation of two continents. A mighty drama of the crafty rogue, who takes his strength from the weakness of men and women. George Arliss is one of the greatest actors of the speaking stage. He is mentioned in the same breath with such artists as Maude Adams, David Warfield, Mrs. Fiske and the Barrymores.

## SCHOOL BOARD COMMITTEE DRAFTS NEW RULES.

At a meeting of the Rules and Regulations Committee of the City Board of Education held at the High School building Tuesday evening the rules of the board were revised so as to care for the change from the Fourth to the Third Class city. These rules will be adopted by the board at its next regular meeting.

## CLASS MEETING.

The Epworth Class of the Third Street M. E. Sunday school will hold its monthly class meeting Wednesday evening, January 11th, at 9 o'clock.

Every member and friends of the class

is requested to be present. Come and enjoy a social hour, a good time is promised by our entertaining committee.

MRS. R. T. WATSON, Pres.

MRS. DUKE WHITE, Secretary.

## G. O. P. SECRETARY DIES AT DULUTH.

St. Paul, Minn., Jan. 10. — Clarence B. Miller of Duluth, Minn., secretary of the Republican National Committee and former Congressman, died at a hospital here late today. He was operated on for appendicitis January 2 and his condition became serious due to heart trouble.

## MASONIC NOTICE.

Special communication of Maysville Lodge, No. 52, F. & A. M., at the Masonic Temple Wednesday evening at 7 o'clock. Work in the E. A. degree. Members urged to attend, visitors made welcome.

ERNEST GARDNER, W. M.

C. P. RASP, Secretary.

## LOCAL BANK TO HAVE BRANCH AT DOVER.

The Farmers & Traders Bank, of this city, which is now consolidated with the Citizens State Bank of Dover, will open a branch bank in the town of Dover beginning Saturday of this week.

## FORESTERS INITIATE TONIGHT.

There will be a very important meeting of the Maysville Court Independent Order of Foresters Wednesday evening at 7 o'clock at Carpenters' hall in the Masonic Temple. Initiation. Members urged to attend.

## AGED WOMAN DIES.

Mrs. Margaret Bramble, aged 77 years, died shortly after 8 o'clock

Tuesday night at the home of her daughter, Mrs. William Gilp in the county. The funeral will be Thursday afternoon at 2 o'clock at the grave in the Maysville cemetery.

## DECEMBER REPORT OF PUBLIC LIBRARY.

## BINGHAM BILL PASSED BY GENERAL ASSEMBLY TUESDAY

Burley Co-operative Association Now Is Backed By Law—Real Work Is Now Expected to Begin.

Frankfort, Ky., Jan. 10. — The Bingham Co-operative Marketing Act now is a law of the State of Kentucky.

It became so at 1:30 o'clock this afternoon when Gov. Edwin P. Morrow signed his name in approval to the enrolled copy which already had been signed by Lieut. Gov. S. Thursdon Ballard, president of the Senate, and Speaker James H. Thompson of the House of Representatives.

The first precedent the bill broke was in being introduced both in the Senate and in the House the first day of the session. To enable the friends of the bill to do this it was necessary for each of the bodies of the General Assembly to have a committee appointed in advance of the regular committees. In the Senate the Rules Committee was formed to take care of the bill and in the House the Committee on Agriculture was named for the same purpose.

It also has the distinction of being the first bill ever to become a law the seventh day after its first presentation of being the only one indexed under the name of a person not a member of the Assembly and of

## OUR POLICY:

To support such measures as are unquestionably for the good of Mason County as an entire community, rather than such propositions as are in favor of the individual interest, or of one section as against another. And likewise to earnestly and consistently oppose all things that are not for the good of the county as a whole.

## BIRDS OF PREY

In a humorist's account of creation the beasts of the field and the birds of the air were named by Adam.

"That? Why that's an elephant, of course," said Adam.

"An elephant?" asked Eve. "How do you know it's an elephant?"

"Well, can't you look at it and see it's an elephant? Beyond a doubt it's an elephant. It couldn't be, for example, a gazelle. Doesn't look as if you could call it a gazelle, seriously."

By such means many birds must have been named by men long after the days of Adam. Otherwise how may we account for the name "hen hawk" or "chicken hawk" having been attached to sun-cry varieties of large hawks which feed mainly upon squirrels, mice, frogs and other prey found in field and forest, and do little damage in poultry yards? How, else, account for the name "sparrow hawk" sticking to a little hawk which lives upon mice mainly?

The Philadelphia North American, which devotes a two-column editorial to a spirited brief for birds, without which agriculture would be impossible "and man with all his boasted power of invention would find himself starving," declares that within eighteen months a bounty placed upon hawks and owls in Pennsylvania cost the farmers \$4,000,000.

Laws protect the robin and catbird, more or less, even in the cherry season, on American farms, and along with them the waxwing, which lives upon insects most of the time is called the cherry bird. But as yet all birds of prey, all carnivorous birds with curved beaks and curved claws, are regarded popularly as destroyers of chickens, and are shot when the opportunity presents itself.

The fellow, whoever he was, who bestowed the name "chicken hawk" upon a half dozen varieties of hawks which catch chickens rarely must have proceeded upon the idea that a hawk which looked as if it would, or could, kill a hen was a chicken hawk. His logic may have been better than that of Adam when he named the elephant, but he sowed widely the seeds of destruction.

The time has come when there is considerable sentiment in behalf of birds which eat insects and seed weeds. Maybe, within a century, as a result, it will again be unnecessary to fight insects off of fruit and vegetables to produce fruit and vegetables. But we are yet a long way from popular recognition of the fact that all hawks and owls are not destroyers of property.

A naturalist declares that if a blacksnake and a barn owl lived in each barn the American farmer would be free from rats, and would avoid the loss of a vast amount of grain. But imagine the excitement the rush to kill, which would follow, in the average case, the discovery of a black snake and a barn owl in the barn! And how proud the rural youth who has brought down a "chicken hawk."

Even the little screech owl, immensely valuable as a mouser, and the sparrow hawk, which lives upon field mice, are not always immune from murder when discovered at close range by the hidalgo who has a shotgun. And a bounty upon "hawks and owls," varieties not specified, which caused a loss of \$4,000,000 in one state before the next session of the Legislature, saying nothing of \$8,000,000 worth of time lost in hunting hawks and owls, is indicative of the state of ignorance in which legislators legislate.

## WHAT COULD HE SAY?

Back from Nebraska has just drifted a story which has had statewide circulation, to the discomfiture of a member of Congress. He had gone home to "see the folks" during the Thanksgiving recess, and was invited by the local League of Women Voters to tell them about important legislation.

The Congressman accepted—with pleasure. He had long before assured them, as voting constituents, that he was in Congress to serve them. When they had asked him to vote for the Sheppard-Towner bill, as their representative, he pledged himself heartily.

On the appointed day he appeared, and spoke—at length. He failed to tell them much, however, so when he stopped talking his audience began asking him questions.

"What about the Sheppard-Towner bill?" asked one, thinking to get a first-hand thrill from one who had been in the thick of the debate.

"Oh—ah," answered the Congressman without the flicker of an eyelash. "I am sorry to tell you that the bill is still held up in Committee."

Deadly silence for a moment, then: "Why Congressman Blank," said the crisp, businesslike voice of the woman who brought Nebraska's electoral vote for Harding to Washington, "don't you know the Sheppard-Towner Maternity bill passed the House on November 19th and was signed and became a law on November 23rd, the day before Thanksgiving?"

"He'd better come home occasionally and let the women tell him what Congress is doing," suggested one mirthful member of the Nebraska League.

"What did he say?" questioned a woman who wasn't there. "He didn't," was the cryptic reply.—The Woman Citizen.

## A DANGEROUS PRECEDENT

Another angle of the foreign debt situation is presented in the suggestion that the United States take over the debt of about a billion dollars owed by China to the allied nations, and credit those nations with the amounts owed them by China. Just why the United States should make the shift is not apparent. No European nation should consent to it, for it would be an implication that the credit of China was better than their own. Regardless of whether or not such a transaction would be to the interests of the United States, it would form a most dangerous precedent in the treatment of the rest of the debt owed by Europe to this country. Once the United States has indicated a willingness to accept transfers of that sort, there would be no end to the juggling of our foreign obligations that would be urged upon us. Better let them stand as they are, and call upon each country to which the money was loaned to pay it back into the American treasury.

# NERVOUS AND HALF-SICK WOMEN

These Letters Recommending Lydia E. Pinkham's Vegetable Compound Will Interest You

## For Your Own Good Please Read Them

Youngstown, Ohio.—"Last fall I began to feel tired and my back hurt me and I could hardly do my little bit of housework. I was so tired out when I would just sweep one room and would have to rest. I would have to put a cushion behind me when I would sit down and at night I could not sleep unless I had something under my back. I had awful cramps every month and was just nearly all in. Finally my husband said to me one day, 'Why don't you try Lydia E. Pinkham's medicine?' and I said, 'I am willing to take anything if I could get well again.' So I took one bottle and a second one and felt better and the neighbors asked me what I was doing and said, 'Surely it must be doing you good all right.' I have just finished my eighth bottle and I cannot say I would like to. If you can use this letter you are welcome to it and if any woman does not believe what I have written to be true, she can write to me and I will describe my condition to her as I have to you."—Mrs. ELIZABETH REINHOLD, 403 N. Pine St., Indianapolis, Indiana, Youngstown, Ohio.

"I was very nervous and run-down," writes Mrs. L. E. Wieser of 708 Louis St., New Orleans, La. "Lydia E. Pinkham's Private Text-Book on Alliments Peculiar to Women" will be sent you free upon request. Write to the Lydia E. Pinkham Medicine Co., Lynn, Massachusetts.

## LESS CULTIVATION AND MORE GRASS IS ADVISED.

Lexington, Ky.—A ninecrease of at least one-third in the acreage of grasses and legumes grown in the state and a corresponding decrease in the acreage of cultivated crops should result in increased profits for Kentuck farmers during the coming year, according to recommendations being made by the soils and crops department of the College of Agriculture. Much of the soil in the 5,000,000 acres

that are being plowed each year to produce cultivated crops is too poor to produce paying yields, specialists of the department says.

Of the 5,000,000 acres being plowed each year, 4,360,000 acres are utilized for cereals, corn being the principal one with an acreage of 3,250,000 acres. On the other hand, only about 2,000,000 acres of hay and forage crops are being grown each year.

In emphasizing the importance of an increased pasture and hay acreage, the specialists have pointed out that

under average farm conditions it is desirable to reduce the amount of plowing to a minimum. Each crop produced and removed from the field removes a large amount of fertility, only one-third of which can be returned to the soil even where the best methods of manure conservation are practiced. In addition, nearly three-fourths of the plowed land is left bare in the winter with the result that erosion and leaching remove a large amount of plant food.

In contrast, the specialists have pointed out that there is no erosion and very little leaching on land used for pasture or hay. A pasture sod holds the virgin soil and when the crop is grazed off most of the manure goes back to the soil. Even on hay land where the crop is removed, the soil is held and the only plant food taken away is that required to produce the crop.

If legumes can be grown with the grass, it will be a decided advantage to the farmer, the specialists say. Japan clover and red top should give good results for pasture mixtures on poor, sour soil. If hay is to be grown on a similar soil, limestone and clover should give good results. All grass and hay land not in a high state of fertility should produce greater yields if given an application of phosphate fertilizer.

## HUNGARIAN ARTISTS

### EMIGRATE TO U. S.

Two well-known Hungarian artists, finding present conditions abroad intolerable, have recently emigrated to America, where the field for their talents is now broader. One is Ernest Dohanyai, a composer-pianist, and the other is Jeno Ring, baritone. Mr. Dohanyai is now planning a concert tour of the largest American cities, while both of them have signed contracts with the Columbia Graphophone Company.

An eastern college president advocates stewed prunes and mush as a diet for college students. He talks as if he were giving this advice from experience.

## OH! MY BACK!

The Expression of Many a Kidney Sufferer in Maysville.

A stubborn backache is cause to when the kidneys are inflamed and swollen, stooping brings a sharp twinge in the small of the back, that almost takes the breath away. Doan's Kidney Pills relieve sluggish kidneys—relieve aching backs. Ask your neighbors. Here's Maysville proof:

Mr. H. Jones, 702 East Second street, says: "I well know the value of Doan's Kidney Pills, having used them for disordered kidneys and backache and they cured me of the complaint. My back had been giving me trouble for sometime. There was a dull, nagging pain across the center of my back just over my kidneys. Many a day I had to let my housework go undone as I was feeling so miserable. I had pains in the back of my head and my kidneys weren't acting regularly. As Doan's Kidney Pills had been used in my family successfully I went to Wood & Son's Drug Store and got three boxes. After using them I was all right. I am glad to recommend Doan's."

Price 50 cents, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Jones had. Foster-Milburn Co., Buffalo, N. Y.

WASHINGTON LETTER

age of its remarkable opportunities. The hearing on the Watson illegal hanging charges before the Senate Committee continues to be devoid of any substantial evidence in support of them. Apparently the sole result of the present agitation is to parade before the public once more some of the distressing facts connected with the World War, and which will accompany every war that is ever fought. The country is convinced that its officers in France conducted the operations as humanely as the business in which they were engaged permitted. The rest is better to forget.

Secretary Weeks has acted wisely in holding up final action on the bid of Henry Ford for the Muscle Shoals power plant. Other industrial leaders are becoming interested in the possibilities at that point, and it is more than probable that the postponement will result in a contract of far more benefit to the Government than the original proposal of Mr. Ford would have meant had it been accepted.

The new Alaskan railway is not only going to open up the natural resources of the territory for development, but already it has materially reduced the cost of living in the towns along its line. Every article of food, clothing, and other supplies that formerly had to be carried by boat on the circuitous route up the Yukon River, may now be transshipped at Anchorage to the railroad and carried overland at a great reduction in freight and a tremendous saving in time. Next summer the 352 miles of road from Anchorage to Fairbanks will be completed, and further freight reductions are anticipated. Passenger traffic, particularly during the summer months, is expected to be heavy. The trip from the coast to Fairbanks will take 24 hours, and is accompanied by magnificent scenery the whole distance. There should be plenty of sightseeing patrons of the road, as well as those who visit the country to take advantage of its remarkable opportunities.

Those foreigners who probe about the impetuous haste of Americans might have occasion to revise their opinions if placed in the position of the country newspaper man trying to collect his subscriptions.

It's dangerous to write good advice. Your wife reads it and asks why you don't live up to it.

## UNITED STATES EXPORTS IN PAST YEAR LARGE

Exports of the United States for the Year 1921 More than Twice as Large as 1910-1914 Period.

The United States exported more than twice as much foodstuffs during 1921 than in the pre-war period, notwithstanding the fact that there has been a considerable decline since the peak of 1918-1919, announced the Foodstuffs Division of the Department of Commerce in a review of the foodstuffs export situation.

With cereals and cereal products, we have exported during the past year thirty-one billion pounds as compared with an average of nine billion pounds before the war or more than three times as much. With meat products we exported during the past year about eighty per cent more than the pre-war average; of vegetable oils practically six times as much; and of dairy products about eleven times as much.

That exports will continue heavy in volume is shown by the fact that for the new wheat crop beginning July 1, we have exported one hundred eighty-one million bushels against a pre-war average of seventy-one million bushels or about two and one-half times as much. We have exported about eight times as much rye and three times as much corn since November 1. When we compare the values the ratio is still higher, as average export prices are still considerably higher for 1921 than were pre-war prices. When we consider that Europe, alone, takes between eighty and ninety per cent of the exports of food products, the large takings from the United States for the past year are really remarkable, considering the financial difficulties under which Europe is struggling.

Although of the same food value as a coarser, degenerated hominy, grits have the advantage of cooking in a much shorter time. To many people their flavor and texture are preferable, especially because the butter, meat fat, or gravy used with them penetrate through the dish better than in the case of the coarse hominy. If grits are soaked in advance the cooking period can be shortened considerably.

The first step in preparing grits for the table is to boil them, like any other cereal. Of course, boiled hominy in the form of grits is frequently used for a breakfast food, or as a lunch or supper dish with a sweet sauce; its possibilities for dinner seem to be less familiar except in the South. For each cup of hominy grits 4 to 5 cups of water is allowed. This should be seasoned with 2 teaspoons of salt. The grits should be added slowly to the salted boiling water and cooked for 10 minutes over the fire. Then the cooking should be continued for two hours in a double boiler or finished overnight in the fireless cooker.

The favorite combination of meat and grits in the South is "hog and hominy," which may be roast pork, fried pork chops or tenderloin, baked leg of pork, or fresh pork sausage, served with a generous helping of plain boiled hominy. Some of the meat is mixed with the grits in place of butter. Sometimes the idea of "hog and hominy" may be stretched to include ham or bacon, and there is no reason why those who enjoy salt pork should not eat it with hominy grits as a starch vegetable.

The uses for left-over boiled hominy grits are innumerable. Grits are particularly good cut in slices, dipped in flour, and fried a delicate brown. This can be served for breakfast or in place of a dinner vegetable. When planned for use in this way the warm boiled hominy should be poured into a bread tin or baking powder can to mould it into a form which attractive rectangular or round slices can be cut. Fried hominy grits with maple syrup, honey, or preserves is a luncheon dish or dessert that may be compared with waffles in satisfaction to the palate.

The questions a wife asks her hubby when he comes home at 3 a.m. are not hypothetical ones, though possibly seeming so.

## CZECH SOCIAL WORKER TO STUDY METHODS HERE

Dr. Marie Joubova, a representative of the Czechoslovak Red Cross, recently arrived in the United States to take up the study of American social service methods, with the intention of later introducing them in Czechoslovakia. She will spend some time in Hull House, studying under the direction of Miss Jane Addams, who was likewise the instructor, 15 years ago, of Dr. Alice Masaryk, the daughter of the president of the Czechoslovak Republic and herself the president of the Czechoslovak Red Cross.

Dr. Poubova will also address American audiences throughout the country on present conditions in the Czechoslovak Republic, dealing principally with those affecting the women and children of Slovakia, who until recently had had little opportunity for schooling, and to whom her past work has been largely devoted.

# Louisiana FEEDING MOLASSES

R. M. HARRISON & SON

GET COLOR  
INTO YOUR  
PALE CHEEKS

If Your Face Is Your Fortune—  
Don't Look Like a  
Bankrupt.

Who does not want red lips, a good,  
clear, healthy complexion and bright,  
flashing eyes?

Some people have such wonderfully  
good health nothing seems to hurt  
them. Others could so easily have fine  
color and more strength and vigor if  
they would help nature with Gude's  
Pepto-Mangan. It is a splendid iron  
tonic that physicians have prescribed  
for thirty years. It is not an exper-  
iment. It is not merely a temporary  
help, because it makes plenty of red  
blood and, as everybody knows, red  
blood is the only sure foundation of  
permanent health and strength. Get  
Pepto-Mangan of your druggist—and  
take it a few weeks and see how much  
better you feel and look. Sold in liquid  
and tablet form.—Advertisement.

GRAND JURY PROBES  
KILLING OF CHILDREN.

Vanwert, Ohio, Jan. 11. — Grand  
jury will investigate the fatal crash  
which cost lives of four school children  
yesterday and injured most of the  
23 other pupils on a school bus which  
was struck by a fast Pennsylvania  
freight train.

J. D. Trimble, Ft. Wayne, Ind., en-  
gineer, is charged with manslaughter.  
He has been released on \$5000 bond to  
await hearing Monday.

HISTORICAL CALENDAR

January 11 — Alexander

Hamilton, born, 1757-1804.

NEW BURLEY AVERAGES

\$17.57 DURING MONTH.

Frankfort, Ky., Jan. 10. — New Crop  
tobacco sales in Kentucky last month  
totaled 28,181,356 pounds, at an aver-  
age of \$17.57 a hundred, according to  
the report made public here today by  
W. C. Hanna, Commissioner of Agri-  
culture.

Sales of new crop weed by types and  
price averages were: Burley, 7,456,198  
pounds at \$23.25; one-sucker, 5,239,-  
892 at \$13.48; unfired dark, 4,542,835  
at \$16.56; fired dark, 4,949,646 at  
\$18.63; Green River 5,992,885 at \$16.78.

New crop burley sales included 5,-  
177,714 pounds sold for growers at  
\$21.06, 1,800,685 pounds sold for deal-  
ers at \$27.53, and 477,800 resold at  
\$23.25.

Sales of old crop tobacco of all types  
during the month aggregate 7,733,872  
pounds at general price average of  
\$14.94.

TROOP SHIP IS LEAKING.

New York, Jan. 11. — The American  
transport Crooke, with 300 troops  
aboard is leaking 600 miles off New  
York, but will make port under her  
own steam, according to a wireless  
message received today by Colonel  
Bash of the Army Transport Service.

## Backache Ceases

Foley KIDNEY PILLS give  
quick relief from backache  
and back and rheumatic  
pains due to disordered  
kidneys and bladder. They  
relieve first, the unpleas-  
ant symptoms and gradually  
bring back health, vigor  
and ambition.

## FOLEY KIDNEY PILLS

are made of pure material,  
carefully and wisely com-  
pounded, tonic in action  
and quick to give good re-  
sults.

The testimonial below is  
one of thousands we have  
received from sufferers  
who have found relief.

"I have been troubled  
with weak kidneys; and  
several times in the last  
ten years I had that ter-  
rible backache and tired  
out feeling, scarcely  
able to do my work.  
Foley Kidney Pills made  
me feel like a new per-  
son." Mrs. G. Hyde,  
Homestead, Mich.

## GRAND JURY SCORES CONDITIONS AT THE LOCAL COUNTY JAIL

Several Indictments are Returned By  
Grand Jury Which Adjourns—  
Report Scoring Jail Is  
Severe Seathing.

The county grand jury adjourned  
finally for the present term Wednes-  
day afternoon after returning several  
indictments into court. Their final re-  
port was a severe criticism of the con-  
ditions at the local jail. It follows:  
"We, the grand jury at the Decem-  
ber term, 1921, respectfully report  
that we have been in session 6 days  
and have found several indictments.  
We find the jail in fearful condition.  
Water supply not working and toilet  
not flushing. The cells and floors  
dirty and filthy. Apparently the only  
thing that has not gotten out lately is  
the air. It is foul and impure and  
dangerous to the health of the pris-  
oners, the inmates and very likely the  
public generally. The beds are dirty  
and utterly insufficient. The walls  
seem unable to hold together when  
anybody wants out. For safety it needs  
overhauling by some expert. For san-  
itation it needs new outfitting and a  
thorough cleaning.

The upstairs of the court house  
needs cleaning up and putting in re-  
pair.

"The jail heating system is out of  
commission and the outside needs  
painting. The clerk's offices seem to  
be well kept and the records in good  
order.

"We were shown through the jail  
by one Gaskins, a long time prisoner,  
who has keys to the jail and full ac-  
cess to all its apartments and could,  
if he wished, turn all the prisoners  
out. J. B. STEERS, Foreman."

The indictments returned follow:

William Edgar, assault and battery.

William Edgar, being drunk on a  
public street.

John Carmichael, owning, having in  
possession and operating an illicit  
still and manufacturing intoxicating  
liquors.

Linville Eddie, same offense.

E. H. Reed, obtaining money under  
false pretenses.

Walter Bush, breaking into a dwelling.

Roy Sharp, housebreaking.

Chas. Johnson and Geo. Holmes,  
stealing turkeys.

Sam Routt, grand larceny.

Often the only difference between  
eccentricity and cussedness is whether  
we wish to express it politely or force-  
fully.

There are a lot of people who half  
believe things that they know are not  
so and still wonder why they don't  
make much headway in this old world.

ARBUCKLE GOES INTO  
HIS SECOND TRIAL.

San Francisco, Jan. 11. — Roscoe  
Arbuckle mustered his legions today  
for his second battle.

The movie comedian, ruddy of face,  
solemn but not broken, his pretty  
wife at his side and a host of lawyers  
publicity men, clerks and stenogra-  
phers clustering around him, was  
ready for a resumption of his defense  
against charges of having taken the  
life of Virginia Rappe.

"We will have few new witnesses,"  
Gavin McNabb, chief counsel for Ar-  
buckle, said before court opened. "We  
expect to be able to prove the inno-  
cence of Mr. Arbuckle. We believe we  
did that at the first trial."

Wood and Third Street, Sixth Ward.

**A. P. HILL'S**  
**FARM FOR SALE**

MR. A. P. HILL, HAVING DECIDED TO QUIT FARMING,  
HAS PLACED HIS FARM WITH ME FOR SALE.

THIS FARM HAS 114 ACRES, LOCATED ON THE PIKE JUST  
THIS SIDE OF MURPHYSVILLE, AND IN THE WASHINGTON  
SCHOOL DISTRICT. FARM HAS GOOD 3-ROOM HOUSE, TO-  
BACCO BARN AND ALL NECESSARY OUTBUILDINGS; ALL  
GOOD STRONG LIMESTONE TOBACCO LAND; HAS 25 ACRES  
OF NORTH FORK BOTTOM.

MR. HILL REFUSED \$155.00 PER ACRE FOR THIS FARM IN  
1919. IT'S LISTED NOW FOR \$100.00 PER ACRE. IT'S A  
GREAT BARGAIN.
